- ♦ Team player
- ♦ Problem solving
- ♦ Fast learner

Daniel Dans

Full-Stack & AI Developer

AI Automation · n8n · DAM · Barcelona · danitechia.vercel.app

ABOUT ME

Developer with a solid foundation in programming, databases and systems, specialized in integrating Artificial Intelligence into real applications. I run four projects of my own in production 24/7 on a Linux VPS I manage myself (systemd, Docker, SSL, backups). Meta Back-End Developer professional certificate. Looking for a role where I can keep growing technically and deliver solutions with real impact.

WORK EXPERIENCE

DAM Internship — Software Developer *DevotionSim*

03/2025 – 10/2025

Built a real-time audio engine from scratch for the official MotoGP simulator: reads handlebar input (RPM 0–1000) and transitions dynamically between audio states (ignition, idle, mid-throttle, cut and deceleration), with real samples recorded and edited in Audacity. Designed the audio flow with FMOD Studio and its official C# API for real-time state changes, loading properties from JSON deserialized into C# classes.

C# .NET FMOD API Audacity JSON

PROJECTS IN PRODUCTION

AI Skill Generator *Tauri 2 · Rust · Tokio*

github.com/danitechIA

Desktop app to create and manage AI coding-agent skills with a built-in streaming chat. Migrated from Electron to Tauri (2.5 MB binary). Public release on GitHub.

TikTokAI *FastAPI · Whisper · ffmpeg*

github.com/danitechIA

CapCut-style word-by-word karaoke subtitle editor with AI: timestamped transcription, multi-track timeline and ffmpeg rendering. In production 24/7 on my VPS.

Estética Carme Cots *React · GSAP · SEO · GA4*

real client website

Website for a real beauty salon: designed and built from scratch, domain and DNS, CI/CD on Vercel, full technical SEO and analytics.

AI Ticket Analyzer *n8n · Docker · MySQL · OpenAI*

github.com/danitechIA

Automation that extracts data from receipts and invoices starting from a photo, detects duplicates and keeps the accounting organized.

CERTIFICATIONS

♦ **Meta Back-End Developer — Professional Certificate (9 courses)** · Meta / Coursera · Jul 2026

♦ **Google Prompting Essentials**
Specialization (4 courses) · Google · Jan 2026

♦ **Intro to AI Development**
BIG school · Jan 2026

EDUCATION

Higher Degree — Multiplatform App Development (DAM)

*Institut TIC de
Barcelona*

2023 – 2025

High School / Baccalaureate *Maria Espinalt*

2021 – 2023
