SOFT SKILLS

- ♦ Self-taught
- ♦ Team player
- ♦ Problem solving
- ♦ Fast learner

Daniel Dans

Full-Stack & AI Developer

Programming · Automation · AI · danitechia.vercel.app

ABOUT ME

Developer with a solid foundation in programming, databases and systems, with a strong interest in AI. I run four projects of my own in production 24/7 on a Linux VPS I manage myself (systemd, Docker, SSL, backups). I am looking for my first job opportunity: I cannot wait to start in the tech industry and I am hugely passionate about this field.

WORK EXPERIENCE

DAM Internship — Software Developer *DevotionSim*

03/2025 – 10/2025

Built from scratch, in a .NET environment with C# and object-oriented programming, a real-time audio engine for the official MotoGP simulator: reads handlebar input (RPM 0–1000) and transitions dynamically between audio states (ignition, idle, mid-throttle, cut and deceleration), with real samples recorded and edited in Audacity. Designed the audio flow with FMOD Studio and its official C# API, creating the system classes and loading their properties from JSON deserialized into C# objects.

C# .NET FMOD API Audacity JSON

PROJECTS IN PRODUCTION

AI Skill Generator *Rust · JavaScript*

github.com/danitechIA/AI-SKILL-CREATOR

Desktop app to create and manage AI coding-agent skills with a built-in streaming chat.

TikTokAI *Python · AI · ffmpeg*

github.com/danitechIA/TIKTOKAI

CapCut-style word-by-word karaoke subtitle editor with AI.

Estética Carme Cots *React · Vite*

esteticacarmecots.com

Website for a real beauty salon: designed and built from scratch, domain and DNS, CI/CD on Vercel, full technical SEO and analytics.

AI Ticket Analyzer *n8n · Docker · MySQL*

github.com/danitechIA/n8n_tikets

Automation that extracts data from receipts and invoices starting from a photo, detects duplicates and keeps the accounting organized.

CERTIFICATIONS

- ♦ **Meta Back-End Developer (9 courses)** · Meta · Jul 2026
- ♦ **Google Prompting Essentials** · Specialization (4 courses) · Google · Jan 2026
- ♦ **Intro to AI Development** · BIG school · Jan 2026

EDUCATION

Higher Degree — Multiplatform App Development (DAM)

*Institut TIC de
Barcelona*

2023 – 2025

High School / Baccalaureate *Maria Espinalt*

2021 – 2023
